

**WHAT'S IN THE BAG?** *-you, your products and your reputation*

Businesses for profit, non-profit organisations, charities, autonomous institutions, community associations and public service providers can all benefit from logo exposure, name awareness campaigns, brand marketing and the delivery of goodwill. Using custom designed non-woven polypropylene (nonPP) bags is the move of the moment that can carry your message on the back of the "reusable/recyclable - economy" versus "single use/trash - waste" public sentiments.

**WHY A BAG?** *-there is no artefact more practical in recorded history*

Do you know of anyone who does not use a bag? The bag is older than human perception and a basic body peripheral. It is the most useful human artifact -virtually the first 'spacecraft'. It is a dynamic, ever-present icon of energy transfer that dutifully symbolises human toil and travel. The adages: "Don't leave home without it." and "Grab one on your way." are best served by the humble but powerful bag. So, if you want your reputation carried to the people - BAG IT!

**We aim to please:**  
*prices are very competitive*

**WHY CUSTOMISE?** *-to get what you want and spend just what you need*

Even businesses with similar products are different. The versatility of the bag affords you the luxury of free expression with unlimited choices to spread your mark, make and manner. Looks and first impressions define every moment. The custom Bag lets you pass on the image you want and target the demographic you choose to set minds in favour of your business and products.

**THE CUSTOMISING PROCESS**

AEB's WISH: Not only do we work hard to make you pleased and happy with your product, we want you enthusiastic about presenting it and proudly using it yourself! We believe the best result comes with a relaxed exchange of helpful service, untiring communication and informed choices. Please give yourself plenty of delivery time. The products are made in China and our experience asks you to consider 8-10 weeks as average. Express delivery is available and priced on request.

AEB's INVITATION: Plan to integrate the phenomenal Custom Bag Marketing Product into your yearly calendar. To familiarise yourself with the bag types in our product range visit [www.aussieenvirobags.com](http://www.aussieenvirobags.com) and go to the catalogue page. We recommend you use a plain coloured bag so as your identifying artwork has the greatest impact. If it suits you can custom design your own bag type. Your choices are endless and we are here to support your wishes.
